About AllKinds Studio

AllKinds is a multi-disciplinary design and fabrication studio that uses all kinds of materials to create custom art installations. With commissions from corporations, organizations, art consultants, branding agencies and architecture firms, we tailor-make each artwork to fit large-scale spaces for brands, interiors, events and movements. Our dedicated team of designers, artists and fabricators mix materials, technologies and techniques to create art and objects that are innovative, meaningful, beautiful and on-brand. We thrive in our collaborative approach, welcoming new ideas and getting excited about the "what ifs". Our combined skill sets and handmade approach enable us to produce anything we can conceive, including even the most complex or technical concepts. With every project, our shared goal is to create a meaningful environment that tells a story in an elevated, authentic and impactful way. And nothing makes us happier than creating that story utilizing materials that were once meant for the landfill and giving them new life. At the completion of our projects, we make every effort to repurpose, recycle or donate leftover materials to ensure they are given the longest, most meaningful lives possible.

Below are our company's Core Values, which we use to measure employee success and advancement:

Core Values

Stronger together

The more we work together, the more we communicate clearly, the better chance we have of reaching our collective goals. We harmonize.

We make anything out of anything

We see possibility and potential in everything.

Be nimble by learning

Our learning culture makes taking on challenging projects exciting and worth it.

Ride or die

We are a hard working team that crosses the finish line together - no matter what it takes.

Other Skills

Do you specialize in one of the following specific skills or something else not on the list? Please be sure to point that out to us.

- Carpentry - We are always on the lookout for talented carpenters to help build our large scale installations or set designs.
- Painters - We often do murals and look for painters with large scale mural experience to round out our team when needed.
- Prop styling - We take on set design jobs and love to have freelancers with prop styling experience to call!
- Set design - You would need to know how to layout unique sets, source materials, and make drawings for a team to build off of.
- Rigging - can you work on an aerial lift? Do you have a license? Do you love being on job sites setting things up? YAY!
- Structural engineering - Must have a structural engineering degree and proper insurance.

Environment

This is an on-site job where the job site will vary according to each project. You must be able to thrive in a fast-paced and varied environment. You will be physically building and making things. It's awesome (and noisy, dusty, and smelly at times... but it's the sounds, feeling, and smell of creativity hard at work!).

Compensation and hours

Compensation is commensurate with experience. Work may take place on nights and weekends as needed.
