About AllKinds Studio

AllKinds is a multi-disciplinary design and fabrication studio that uses all kinds of materials to create custom art installations. With commissions from corporations, organizations, art consultants, branding agencies and architecture firms, we tailor-make each artwork to fit large-scale spaces for brands, interiors, events, and movements. Our dedicated team of designers, artists, and fabricators mix materials, technologies, and techniques to create art and objects that are innovative, meaningful, beautiful, and on-brand. We thrive in our collaborative approach, welcoming new ideas and getting excited about the "what ifs". Our combined skill sets and handmade approach enables us to produce anything we can conceive, including even the most complex or technical concepts. With every project, our shared goal is to create a meaningful environment that tells a story in an elevated, authentic, and impactful way. And nothing makes us happier than creating that story utilizing materials that were once meant for the landfill and giving them new life. At the completion of our projects, we make every effort to repurpose, recycle, or donate leftover materials to ensure they are given the longest, most meaningful lives possible.
