

Art Collection

Updated: May 1, 2023

Letter to you

To all the dreamers + doers. To the makers + buyers.
To those of you that see the magic and excitement
of art and want to create a special place.

Our team has caringly curated these works to bring
heart, texture, and wonder to your spaces.

We're continuously working on new offerings to add
to this catalog - so if you have something you are
dreaming on... or searching for - please let us know
so we can nurture that artful seed and help it grow.

We are the waterers of seeds, the creators of art,
the collectors of materials and techniques - and we
are happy to develop ideas into real life works that
make us smile.

Please enjoy our collection. We made it with joy, for
you.

In the spirit of seed planting... Our dream is to
launch and grow this collection so that it becomes
an arm of our business that can support an
apprenticeship program in partnership with New
Moms (newmoms.org) that we are launching in
the Fall of 2023. New Moms partners with young
moms and their children who are experiencing
poverty and homelessness. They provide critical
services and coaching around housing, job training,
and support for families in Chicagoland. In their
programs, young moms define goals and cultivate
their inherent abilities while building a strong
foundation that will lead to long-term family well-
being. We want to provide them with jobs in art and
design. Let it be known.

FRAMING

We offer framed or unframed artwork. Our frames are either waxed ash, stained black ash or painted white ash. The frame has a 1" wide and 1.75" deep profile, and is sized to the art. Due to the sculptural nature of our work, we do not include glass or museum acrylic, but we can modify the frame to accommodate these requests for additional cost. If a specific art has custom frame requirements, it is noted on the specification pages.
